Follow up letter to the Village of Belledune Residents

Maritime Iron would like to take the opportunity to thank the Village of Belledune and their residents for attending the information session on January 23rd.

We were very pleased to see almost 100 residents attend our information session, that gave Maritime Iron the opportunity to meet face to face with the residents and provide information regarding our project. We appreciate the opportunity to start a dialogue towards understanding any concerns of individuals may have regarding the project.

Maritime Iron's objective is to build a strong relationship with the local community; we will conduct our business with integrity, transparency and trust. Following up on the information session from January 23rd we want to provide all residents further opportunity to ask questions of Maritime Iron, we invite you to send any further questions you may have to consult@maritimeiron.ca

Maritime Iron will review your questions and respond in a timely manner.

Maritime Iron is thankful for the warm hospitality.

Sincerely,

Maritime Iron Management Team
