

Brunswick Smelter Decommissioning Team to host information session

The Brunswick Smelter Decommissioning team will be hosting an information session to give community members the opportunity to learn more about the decommissioning project. Members of the decommissioning team will be joined by independent experts to provide a detailed overview of the project and answer questions.

The team has had to reschedule numerous times due to public health restrictions so have made the decision to proceed with a session on **November 23, 2021**, either in-person or virtually. The decision will be made based on COVID case numbers and public health advice. The in-person session will be from noon-8:00 PM at the Belledune Recreational Centre.

Proof of double vaccination is required for entry and masks will be required.

Here's what it means for attendees:

- Attendees must register in advance by filling out the form at www.brunswicksmelter.ca. Registration must be complete by November 18th, 2021.
- All attendees will receive an email 48 hours in advance to confirm if the information session will be in-person or virtual.
- If virtual, the email will provide all necessary details.

Please call or email with questions.
